A note from...

BRADON MARSHALL
President

Summer is quickly coming to an end which means the AACFB Commercial Financing Expo is right around the corner! We hope you are making plans to attend the conference in Orlando in September. While you are there, stop by our booth. We've made some exciting changes to our programs making it easier than ever to choose us as your preferred lender.

In a lending environment that is known for its ups and downs, you can be confident in CHB as your financing source. Not only do we have more than 50 years of experience in the industry, we are part of a much larger financial network, Platte Valley Companies (PVC). PVC is a diverse company with locations in three states. Included in the PVC family of companies is Platte Valley Bank, Mountain Valley Bank, JGE Insurance and us, CHB, just to name a few. The diversity of PVC makes it strong and reliable, which means you can do business with confidence. CHB is here to help you today, tomorrow and well into the future.

An important part of our company mantra is giving back to the communities we live in. Recently, the CHB team joined the WYDOT Adopt-A-Highway program. We spent several hours cleaning up both sides of I-25 between mile markers 76-78. This project was chosen specifically because of the negative impact trash and debris can have on our community. We also want to help keep the truck drivers that frequent that route safe from potential hazards.

CHB is more than a finance company, we are a friend to the industry. Thank you for trusting us with your business.

CHB CHATTER

featuring... **WYATT DUNLAP**

I'm a Wyoming native, born and raised in Wheatland. In fact, my family ties in Wheatland go all the way back to 1912. Our family ranch, The Dunlap Ranch, is celebrating its 100th year of existence this year, so if you see me in a cowboy hat I come by it naturally. I've been a rancher all of my life, but I was looking for something a little different, a new challenge, while staying close to my roots.

I spent two years at Central Wyoming College in Riverton Wyoming and then transferred to the University of Wyoming where I graduated with a Bachelors degree in Ag-Business. When I finished college, I knew I wanted to come back to Wheatland, but not necessarily to the family ranch. CHB is the perfect fit. I get to live where I love while enjoying new challenges everyday. I have really enjoyed the excitement of learning about the equipment financing industry and

it is especially rewarding to develop working relationships with the equipment brokers and customers. It is fulfilling to know I am helping someone with financing their dream of owning their own equipment.

I would tell you that I like long walks on the beach but I've never actually been to the beach, Wyoming doesn't have much for beaches. In my free time I enjoy lake fishing and fly fishing the great rivers around Wheatland and surrounding areas. I'm an avid outdoorsman that has spent lots of hours in the mountains just west of Wheatland. I still love to work with cattle and horses and do it every chance I get.

Thanks to my time in college, I've discovered a new passion, photography. Although I don't spend as much time on it as I would like, I enjoy capturing and preserving a single moment in time that can be shared and enjoyed over and over. Here are couple of examples from my collection. As you can see, I get to combine my love of the outdoors with this new hobby.

Even though I just recently joined the CHB team, I am really enjoying getting to know the industry. I learned a long time ago from my ranching roots that working hard and perseverance will always bring success.
